

Entity Pro

Safest and Most flexible AC Charge Point on the market

GARO Entity, a new series of complete charging boxes. Future-proofed and adapted for harsh climates like the Nordics. We've made it easier than ever for you to have full control over your charging. Whether you want to schedule your charging (according to time or electricity unit price), control user access or track consumption, the GARO Connect app is always there to help. Each GARO Entity comes with 4G, Wi-Fi and LAN support, so you can trust that your charging can always be monitored and controlled. With its minimalist design and powerful software, GARO Entity Pro is the perfect solution for your charging needs.

Supporting both single and three phase charging, it charges all brands and models of cars. The Entity Pro is designed with an open source interface, which gives you the freedom to choose a back office operator you prefer, ensuring you are never locked into a single supplier. While using the GARO Connect app, you control the functions of the charging station, such as charge monitoring, billing, documentation, and user management.
